Course Overview

This section gives you an introduction to what you will be learning in this course, plus course outcomes, career opportunities, and student support.

Introduction

This hands-on short course is designed to give you the practical skills and knowledge needed to carry out artificial insemination (AI) in cattle.

AI is an essential tool in cattle breeding, helping improve herd genetics, productivity, and reproductive health. You will learn how to perform AI successfully, including handling semen, detecting estrus, and understanding reproductive anatomy.

What will I Learn?

During this course you will gain knowledge and hands-on skills in Cattle Artificial Insemination. You will gain practical experience using our Bovine simulation equipment as well as practice with live animals on approved farms.

Course Outcomes and Career Opportunities

On successful completion, you will receive a Statement of Attainment for this course.

Course Requirements

This section gives you an overview of entry requirements, course units and electives, skills recognition, and assessment criteria.

Entrance requirements & pre-requisites

- You must be at least 17 years of age.
- It is expected that you currently work or own a cattle or dairy farm or are employed in a cattle Artificial Insemination (AI) company, and have experience in animal handling, health and breeding.

For this course, you will need to:

- bring a pen and paper
- wear appropriate protective clothing for handling animals and fully covered work boots.

Units offered

Core Units

Unit Code	Unit Name	Unit Hours	Unit Consumables
AHCAIS304	Artificially inseminate livestock	80	\$0.00
AHCLSK341	Coordinate artificial insemination and fertility management of livestock	90	\$0.00

Assessment

This course involves accredited units. You will be required to complete assessment tasks to demonstrate your underpinning knowledge, skills and attributes to meet the course outcomes. A combination of written, oral and practical assessment strategies will be used in either a classroom, online or workplace environment.

Where units require demonstration of skills in a workplace environment, you will have the opportunity to do this either in your own workplace (where appropriate), through a practical placement, or by using one of the Institute's simulated workshops/classrooms. Detailed information about the types, conduct and dates of assessments will be provided in advance. You will also be provided with information about the opportunity for reassessment and appeal.
