## Course Overview

*This section gives you an introduction to what you will be learning in this course, plus course outcomes, career opportunities, and student support.*

### Introduction

Working at heights can be a major workplace hazard, as falls can result in injuries and fatalities. This course provides you with the knowledge and skills you will require to work safely at heights using fall prevention and arrest equipment, ropes and appropriate anchorage points. The content will include how to identify and demonstrate the correct selection, use and maintenance of work positioning and fall injury prevention systems, as well as relevant equipment and technique. You will also be able to understand and participate in fall prevention programs in the workplace.

### What will I Learn?

- fall prevention and arrest equipment, ropes and appropriate anchorage points
- implementation of legislative and Australian standard requirements related to height/roof and fall prevention
- other related legislation, codes of practice and standards
- types and identification of fall hazards in the workplace
- assessment of risks related to fall hazards, using appropriate risk assessment methodology
- how to determine and implement measures to control risks related to fall hazards using a number of control measures, including passive fall prevention systems, work positioning systems and fall injury prevention systems
- selecting and using ladders (fixed and portable), including single and extension ladders, and step ladders.

### Course Outcomes and Career Opportunities

On successful completion, you will receive a Statement of Attainment for this course.

## Course Requirements

*This section gives you an overview of entry requirements, course units and electives, skills recognition, and assessment criteria.*

### Entrance requirements & pre-requisites

There are no entrance requirements for this course.

### For this course, you will need to:

- provide photo ID to the trainer on the day of the course
- bring a pen and paper
- wear fully covered boots (with rubber soles) and appropriate protective clothing.

## Units offered

## Assessment

This course involves accredited units. You will be required to complete assessment tasks to demonstrate your underpinning knowledge, skills and attributes to meet the course outcomes. A combination of written, oral and practical assessment strategies will be used in either a classroom, online or workplace environment.

Where units require demonstration of skills in a workplace environment, you will have the opportunity to do this either in your own workplace (where appropriate), through a practical placement, or by using one of the Institute's simulated workshops/classrooms. Detailed information about the types, conduct and dates of assessments will be provided in advance. You will also be provided with information about the opportunity for reassessment and appeal.
