Course Overview

This section gives you an introduction to what you will be learning in this course, plus course outcomes, career opportunities, and student support.

Study from home during COVID-19 restrictions

Whilst we pride ourselves on our hands-on training, we have had to adjust most of our courses for study from home and remote learning during the COVID-19 restrictions. This means courses will be delivered using a range of methods including online learning, virtual classrooms, workbooks and direct contact with your teacher.

Given the government restrictions that are now in place to reduce the spread of coronavirus in Australia, we expect this new model of study will continue until the government makes changes to these restrictions.

Introduction

This specialised program – which is unique to South West TAFE- gives young parents the opportunity to access the Victorian Certificate of Applied Learning (VCAL) in a supportive and friendly environment. The program has a holistic approach which means that the children are in the classroom with their parents while they complete their work. A fully qualified Child Care Worker provides activities for the children to support their development and learning while the parents complete their class work. The classroom incorporates a 'child friendly zone' so the children can participate in activities such as role play, painting, reading, adventure play on the equipment and many other activities. The VCAL Intermediate gives you practical work-related experiences, as well as literacy and numeracy skills and the opportunity to build personal skills that are important for life and work. Like the Victorian Certificate of Education (VCE), it is a recognised senior secondary qualification.

The VCAL program and the teaching of it at South West TAFE supports and promotes the principles and practices of Australian democracy through a commitment to elected government, the rules of law, the values of openness and tolerance, equal opportunity, and freedom of speech.

What will I Learn?

You will learn a range of skills through teacher guided, project-based, hands-on learning; including Literacy, Numeracy, Personal Development and Work Related Skills. You will investigate and experience a number of different industries and job pathways in their chosen area. You will learn necessary social, personal and academic skills to take independent steps towards sustained engagement in formal education and training. Young Parents VCAL study will be undertaken in an environment that is supportive and encouraging of parental obligations as the course is structured to allow children in class.
